

## Travel Consultin Company ERD

assumptions:

1. Each call is associated with one customer.
2. Each call is handled by one consultant.
3. Consultants do not have direct relations with customers, only through calls.
4. Consultants are sometimes in different teams, so an assignment as the bridge table is created connecting team and consultant.
5. Management do not take calls.
6. One region may have several teams.

## DVD Rental ERD

assumptions:

1. Each branch has one manager. A manager only runs one branch at one time.
2. Each customer must register for membership before renting. Customers cannot rent DVDs at a branch they are not registered at.
3. Movie category is stored as an attribute instead of an entity.
